

Operations HQ: A Strategy Immersion Program

The Operations HQ Strategy Immersion Program brings the key members of your executive team together for an off-site, full day retreat designed to delve into the core of your business and generate an actionable operations strategy.

Benefits of Operations HQ include:

- Increased profitability
- Solid operations and supply chain strategy for a successful future
- Clear organization and greater accountability
- Effective strategy implementation
- Unbeatable agility to respond to market changes
- Painless communication, more fun and less stress

“Rick Pay recently led my executive team through a one-day Strategy Immersion. **It was the greatest day we have spent as a team** looking at the major components of Operations and Supply Chain strategy. Rick’s outside perspective combined with our own business knowledge helped us bring focus and direction to our Operations. **This one day dramatically improved our thinking and was money well spent.**”

-William H. Barton III, President/Owner, Forest Dental

Strategy Immersion Planning Retreat

- One day (approximately 9am to 4pm) off-site session to develop your long term operations strategy
 - Review your company’s mission and identify critical short term issues
 - Use the 10 key decision categories for operations strategy to create objectives
 - Generate action plans
- Results will include naming key focus areas, identifying required resources, creating implementation plans and setting budget parameters
- Pre-retreat preparation includes interviews with participants to identify highest opportunities for growth, innovation and profitability

Opportunities to further capitalize on the planning retreat include:

30 Day Sounding Board

- Selected team members will have unlimited access via phone and email for coaching on implementation issues, follow up, results monitoring and accountability

Booster Shot

- One day off-site follow up event three to six months after the initial retreat
